

Mrs. Kellee Murrell *Principal*

June 2024

Greetings St. Philip's Parents and Students!

Thank you for another wonderful year at 1600 Pennsylvania Avenue! Enclosed you will find a summer reading list, math activity packets, school supply information, uniform policy, class trip information (2nd through 8th grades), a 2025-2026 school year calendar, and several other important items. Many of these items, along with the full year calendar, will remain posted in the parent portal of our school website, www.stphilips1600.org. If any of the above items are missing please contact the Office of Admissions and Enrollment Management at admissions@stphilips.com. Records may be withheld if your child has missing books (library or textbooks) or if there is a need to reconcile with the business office for any reason.

The Summer Reading and Math requirements can be found throughout this document based on your students 2025-2026 grade level.

Plan to join us for our "Back to School Bash" event on Sunday, August 18, 2025, time TBD. This is also an opportunity for you to bring your labeled school supplies to the classroom before the first day of school. Look for a special message from your homeroom teacher or advisor in early August.

The first day of classes will be Wednesday, August 21st with chapel service beginning at 8:25 AM.

There will be no before or after school care until, Monday, August 25th.

Parents, we will be looking for volunteers to assist in AM carpool – coined, K.S.S. (Keeping Saints Safe) each day. A sign-up link will be shared prior to the start of the school year for you to sign-up for your homeroom or grade levels week. Let us know if the students can count on seeing your smiling face as they arrive to school next year. If you can commit to one day or more, it will truly help. The shift is 7:40 until 8:00 AM. Thanks to all who stepped in to make our student arrivals happy and safe this past year. We truly appreciated your 'sunshine or rain' sacrifice.

Enjoy a wonderfully blessed summer!

Sincerely,

Kellee Murrell, George T. Lee Principal kmurrell@stphilips.com

Middle School Summer Reading Activities

"The whole world opened to me when I learned to read." — Mary McLeod Bethune

This quote by Mary Mcleod Bethune captures the heart of what we hope to ignite in every student through our summer reading activities—a sense of wonder, discovery, and empowerment from reading.

Reading allows us to explore new ideas, understand different perspectives, and connect with experiences beyond our own. This summer, we invite students to take part in a journey that will open doors to imagination, critical thinking, and lifelong learning.

Through our curated book options, engaging activities, and opportunities for reflection and creativity, we hope to develop **not just reading skills—but a love for reading** that will continue to grow year after year.

Investigative Journalist

Reading news articles is an essential skill that helps us stay informed about the world. This assignment will guide you in evaluating five news articles from reliable sources, such as Times for Kids. By assessing the content and details of these articles, you will learn how to identify key ideas that summarize the main points effectively.

Step 1: Choosing Your Articles

Select five articles from a credible source. Times for Kids, for instance, provides articles on various topics suitable for your age group. Make sure the articles cover different subjects, such as current events, science, and culture, to give you a broad understanding of the news.

Step 2: Reading and Taking Notes

As you read each article, take notes on the following:

- The main topic of the article.
- Important details that support the main idea.
- Any quotes or statistics that stand out.
- Your thoughts on the article's message.

Step 3: Evaluating the Articles

After reading, evaluate your notes and answer the following questions for each article:

- 1. What is the main idea of the article?
- 2. What details support this main idea?
- 3. Are the sources used in the article credible and reliable?
- 4. How does this article relate to current events or your own life?

Step 4 Writing Prompt:

Create a 2-3 minute <u>news segment script</u> analyzing how the information from the article impacts both local communities and personal lives. Include:

- 1. A clear introduction stating the article's main topic
- 2. At least 3 specific ways the article's content affects the local community
- 3. At least 2 personal examples of how this information directly impacts daily life
- 4. A conclusion that summarizes the key takeaways
- 5. Professional news anchor language and tone
- 6. Citations of specific information from the article to support each point

Exploring Characters with Mildred D. Taylor

Assignment Goal: To analyze how an author develops characters and to build a deeper understanding of identity, justice, and resilience through literature.

Step 1: Choose ONE of the following novels by Mildred D. Taylor to read over the summer:

- 1. Roll of Thunder, Hear My Cry ISBN 9780140384512
- 2. The Land ISBN 9781101997543
- 3. Let the Circle Be Unbroken ISBN 9781101997543

Step 2: Character Analysis Project

After reading your chosen novel, select **one character** to analyze. Complete the following **Character Analysis** questions in a written format. Use complete sentences and support your responses with evidence from the text.

Character Analysis Questions:

2. Character Motivation:

- How do the character's internal conflicts influence the choices they make?
- In what ways do external pressures or societal expectations impact the character's goals or desires?
- How does the character's background, including family, culture, or historical context, affect what motivates them?
- Are the character's motivations consistent throughout the story, or do they change? Why?
- Think about your own family dynamics. How do your family values and experiences compare to those of the characters in the novels?

0

3. Theme Connection:

- How does this character's journey connect to one or more major themes in the novel (e.g., racism, family, justice, resilience)?
- Explain any traditions or beliefs that your family holds that resonate with the themes in your selected novel.

- What are the character's feelings?
- How does the historical context influence their experiences?
- What personal reflections might they have based on their struggles?

Your diary entry should be at least one page, written in the first person, and convey the character's emotions and thoughts clearly.

4th – 7th Grade Summer Math Requirement:

This summer all students are required to work in *ALEKS*. Students will continue their path from the school year. Some students may have to begin by taking a diagnostic assessment when they log in. Please do not assist them as they will continue working on this program weekly throughout the year and must be able to work independently. This program will design a path to help students increase their math skills and retain concepts. Students MUST work to receive a 100% completion percentage on the current instructional level of *ALEKS*. This requirement must be completed by the 1st day of school. If students are working above grade level they should have an email with Math Summer Requirement as the subject to confirm and let them know what is required of them. See the guidelines below (Page 2) regarding what students need to do to receive credit.

Account logins for new students will be sent to parents via email by June 3rd. Students will access *ALEKS* by visiting www.aleks.com. Please print this sheet and have your student write down their log in information below, to ensure that they have this information during the summer. *Please share this information with any household where your student will spend a significant amount of time this summer.

Username: _	
Password: _	

Teachers will receive a report monthly and again at the end of the summer detailing your student's progress and this will count as a completion quiz grade. **Students not meeting the requirement will receive a 0 as their first quiz grade.** Parents will receive a weekly summary email of your student's progress. Please watch the video to listen to detailed instructions. https://youtu.be/pPPEQiYrEV8

**Please pay close attention to the number of topics that students have learned or mastered. This is the way to increase their percentage. The goal is to retain and improve your student's math skills over the summer. The results will also provide valuable information on how we can work together to ensure your student's success during the next school year.

Finally, here are guidelines for making the most out of the at-home learning experience:

- Students MUST keep an organized ALEKS journal to work out problems. They
 will include the topic title and date for each page. Do not allow your student to
 use a calculator, unless it is provided within the program for a specific problem.
 Journals are required to be turned in to your student's math teacher on the 1st day of
 school.
- 2. Please discourage your student from using external help, such as the Internet or a family member providing them with answers. Students will get the most benefit from working through the problems on their own! They can access videos on Khan Academy, Flocabulary, Math antics or Math Playground for instructional concepts and practice as needed. Topics may be done in any order. Students are encouraged to skip around to work on topics that they are more familiar with before tackling problems that may be more challenging for them.
- 3. **Don't forget that tools are available in the ALEKS program to help your student!**Tools include:
 - A Dictionary of math terms and concepts
 - An "Explanation" button providing step-by-step instructions for solving a problem
- 4. Set a regular work schedule. Students work speed may require additional time.
 - Hours Per Week: 1+
 - Number of Days Per Week: 2-3 days a week
- 5. Check your student's progress percentage often. Do NOT wait until the last week.
- 6. For 4th Grade ONLY...If your student has NOT completed Reflex math multiplication and division at 100%, keep working toward this goal in addition to ALEKS. This will help with their math fluency and success in ALEKS.
 - Access Reflex math through your Clever account to check your percentage.

For technical assistance, please contact ALEKS Customer Support:
